Noram Announces Intent to Diversify into the Regulated Marihuana Industry

Vancouver, British Columbia – April 11, 2014 – Noram Ventures Inc. (TSX-V: NRM) (“Noram” or the “Company”) is pleased to announce it has initiated discussions with parties in both Canada and the United States that have applied for commercial licenses to legally produce marihuana.

In Canada, the Company is in discussions with parties that have applied to Health Canada to become licensed producers under the new Marihuana for Medical Purposes Regulations (MMPR) that went into effect April 1, 2014. Under the MMPR, licensed producers can be authorized to possess, sell and or provide, ship, deliver, transport, destroy, produce, export and or import marihuana for medical purposes.

In the United States, the Company is in discussion with parties who have applied to the Washington State Liquor Control Board to become licensed to produce, process and sell recreational marihuana. While medical marihuana is legal in 20 US states, Washington along with Colorado are the only states to legalize the non-medical use of marihuana.

“The regulation of the marihuana industry in North America is attracting significant attention from the investment community and it is Noram’s intention to capitalize on the opportunity to participate in this emerging industry,” said Noram President Dave Rees.

While discussions are ongoing, the Company can make no assurances that an agreement will be concluded in the future.
