

FOR IMMEDIATE RELEASE

NORAM AMASSES ONE OF THE LARGEST LAND PACKAGES IN NEVADA'S CLAYTON VALLEY WITH ADDITION OF 350 LITHIUM BRINE/CLAY CLAIMS

The new Hades claims were acquired through Noram's wholly owned subsidiary Green Energy Resources

Vancouver, British Columbia – June 7th, 2016 – Noram Ventures Inc. (TSX-V: NRM Frankfurt: N7R:GR) ("Noram" or the "Company") is pleased to announce that it has acquired, via staking, an additional 350 lithium brine/clay placer claims as a compliment to Noram' existing land package located in the heart of Nevada's Clayton Valley lithium brine exploration area. This brings Noram's land package to a total of 738 claims comprising 14,738 acres located both north and south of Albermarle's Silver Peak mine, North America's only lithium producer.

Noram's President and CEO, Mark Ireton, stated "We are very pleased to have amassed one of the largest land packages in the Clayton Valley and coupled with our graphite project in British Columbia, we feel that Noram is positioned to be one of the most exciting Green Energy plays in North America."

The Clayton Valley Hades Block Expansion.

The Hades claim group is located southeast of the Silver Peak lithium mine operated by Albermarle Corp. and south of the northern claim groups of both Lithium X and Nevada Sunrise. The geology is again similar to that beneath the Spartan claims (Noram's news release [May 26th 2016](#)) in that it consists of tan to green Tertiary age tuffaceous sediments. The units on the Zeus claims have been traced and are the same units exposed on Cypress Development's & Matica's ground. The sediments found on the Hades claims are primarily water laid tuffaceous units.

Historic and present drilling programs surrounding Noram's Clayton Valley South Expansion Property suggest the potential for the discovery of lithium-bearing brines.

The technical information contained in this news release has been reviewed and approved by Michael Collins, P.Geo., who is a Qualified Person with respect to the Hades Claim Group Property as defined under NI 43-101.

About Noram Ventures Inc.:

Noram Ventures Inc. (TSX-V: NRM Frankfurt: N7R) is a Canadian based junior exploration company, with a goal of becoming a force in the **Green Energy Revolution** through the development of lithium and graphite deposits and becoming a low-cost supplier for the burgeoning lithium battery industry. The Company's primary business focus since formation has been the exploration of mineral projects that include the lithium projects in Clayton Valley in Nevada and the Jumbo graphite property in British Columbia. Noram's long term strategy is to build a multi-national lithium - graphite dominant industrial minerals company to produce and sell lithium and graphite into the markets of Europe, North America and Asia.
