

News Release

Clarification of Technical Disclosures as a Result of a Review by the British Columbia Securities Commission

Vancouver, British Columbia – August 16th, 2017 – Noram Ventures Inc. (TSX-V: NRM Frankfurt: N7R) (“Noram” or the “Company”) and Alba Minerals Ltd. (“Alba”) (TSX-V: AA.V: AXVEF:US Frankfurt: A117RU) report that as result of a review by the British Columbia Securities Commission (“BCSC”), we are issuing the following news release to clarify our disclosure.

Deficiencies in Filing and Technical Disclosure

The Company filed a technical report for the Clayton Valley Lithium Brine/Clay Project, dated July 24, 2017 (the “**Technical Report**”). It has been determined that the Technical Report does not comply with the requirements of National Instrument 43-101 *Standards of Disclosure for Mineral Projects* (“**NI 43-101**”) and that investors should not rely on the results until a compliant report is filed.

Disclosure Issues in the Technical Report

- *Reliance on Experts.* The Technical Report includes reliances not permitted by s. 6.4 of NI 43-101 or Item 3 of Form 43-101F1.
- *Reasonable Prospects.* The Company needs provide additional details with respect to constraints on the mineral resource and details to support reasonable prospects for eventual economic extraction.

Corrective Action

The Company is currently working to correct and rectify all of the identified issues. A NI 43-101 compliant report is in preparation and will be filed as soon as practicable.

About Noram Ventures Inc.

Noram Ventures Inc. (TSX-V: NRM Frankfurt: N7R) is a Canadian based junior exploration company, with a goal of becoming a force in the Green Energy Revolution through the development of lithium and graphite deposits and becoming a low-cost supplier for the burgeoning lithium battery industry. The Company’s primary business focus since formation has been the exploration of mineral projects that include lithium projects in the Clayton Valley in Nevada, the Hector Lode in San Bernardino county, California, the Arizaro East mineral claim located in the eastern portion of the Salar de Arizaro in north- western Argentina and the Jumbo graphite property in British Columbia. Noram’s long term strategy is to build a multi-national lithium-

graphite dominant industrial minerals company to produce and sell lithium and graphite into the markets of Europe, North America and Asia.
